Over fifty years of combined experience to create the most stunning lamp shades in the industry.

Based in Oxfordshire, England, our small and talented team of dedicated shade makers meticulously craft lampshades by hand into many shapes, sizes, and colours.

Our artisans collectively share over fifty years of combined experience in the craft, and it shows. From bright and bold two-tone hard shades in luxury silk to sumptuous pleated soft shades featuring delicate taffeta linings, there is almost nothing that this artistic team cannot create.

The range of possibilities available for those who like to be a little different is even more exciting. If you love interiors as much as we do, you'll be thrilled to discover that we offer a fully bespoke service using customer fabrics.

Should you wish to learn more about our offering and capabilities, or perhaps you are interested in having a look at our range of beautiful fabric swatches, please contact us directly to discuss your requirements. One of our team will be more than happy to assist you.

*“The most beautiful shades
begin with the finest fabrics.”*

NATURAL DUPION SILK

Our 100% dupion silk is a natural handwoven fabric, unmistakable by a richness and variety of colour and texture. The triangular structure of the fibre acts like a prism, refracting light and giving the surface of the fabric a lustrous sheen. As a natural fibre the texture and slub of dupion silk is characterised by variations and irregularities in the shade and weave.

PURE LINEN

Made from 100% linen, this fabric carries an elegant and subtle matt sheen. Linen is a natural fabric made from the flax plant. One of nature's strongest fibres, its threads have variable lengths that contribute directly to its overall strength and longevity.

LAMINATE LININGS

The shade laminate gives hardback shades their rigidity. We carefully select our laminate to ensure the shades are sturdy and rigid whilst allowing the light to give a soft glow through the fabric. Our metallic laminates add a contemporary feel. The warmer gold and bronze will influence the light giving a warmer ambience.

TAFFETA LININGS

Our taffeta linings are a crisp, smooth woven fabric made from a silk and acetate polyester mix. There are two distinct types of silk taffeta: yarn-dyed and piece-dyed. Piece-dyed taffeta is often used in linings and is soft to the touch. The word is Persian in origin and means twisted woven.

COLLECTIONS

ARENDAL

The Arendal collection is characterised by its unmistakable honeycomb structure, lavishly decorated in a hand-applied distressed gold leaf. Each design has a frosted tempered glass diffuser, which acts as a screen to soften the light, making them ideal for spaces where moderated light is required, such as bedrooms or dining areas.
