Morten, PBJ

PBJ was founded in 1968 by Per Buhl Jørgensen – which is the reason the company is called PBJ.

The production started in Rødning –Spøttrup, a small town in the western part of Denmark, idyllically situated in the countryside close to the fiord. Several of his designs were conceived for the wealthy Americans – for example jewelry cabinets, individual coffee tables, and later TV and media cabinets as one of the first producers in the world.

Then in 1996 Morten bought the company and in 2011 decided to move the production to their factory in Poland. Still a 100% Danish owned family company remaining at the place where it all started their designs are made by Danish designers and architects.
